

# Caring Hearts

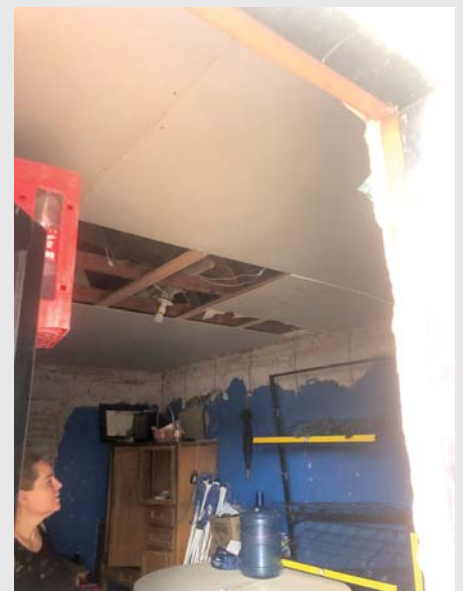

**Jesus Lizarrga**

---

## History

Jesus lives alone and has diabetes that is not under good control. He had surgery and had toes removed after developing horrible ulcers on his feet. While in recovery, his house caught on fire, and he replaced the roof with some scraps in the meantime. While he was home in his bed in recovery, someone broke in and robbed him of everything, including the items he would sell out of his front yard as his only income.

**Need** A bathroom.      **Estimated Cost:** \$1,000
